AAYUSH SINJON

87095950558 | aayushsinjon.dev@gmail.com | LinkedIn

Aspiring AI/ML Engineer with a strong foundation in machine learning, deep learning, and Python, seeking to apply model development and deployment skills to solve real-world problems. Passionate about leveraging data-driven insights to build intelligent, scalable systems.

EDUCATION

B.Tech — Computer Science & Engineering
Kalinga Institute of Industrial Technology | CGPA: 9.36 | [2024 – Present]

Intermediate / +2
Symbiosis Public School | Percentage- 73% [2023]

High School
De Nobili School | Percentage- 78% [2021]

SKILLS

Languages : Python, HTML/CSS, SQL(Oracle, MySQL), Java
Tools : Git,GitHub, LeetCode, Ubuntu, VS Code
Soft Skill: Research Mindset, Problem Solving, Communication, Data-Driven Decision Making, Adaptability

RELEVANT COURSES

Data Structures & Algorithms . Object-Oriented Programming . Database Management Systems . Operating Systems . Computer Networks . Probability & Statistics . Linear Algebra . Discrete Mathematics . Calculus

ACTIVITIES

Basketball – Under-16, School Level, Dhanbad [2016–2021]

- Trained and competed regularly at the school/district level for 5 years, balancing sports commitment with academics.
- Developed strong teamwork and communication skills through consistent collaboration with teammates.
- Built discipline, time management, and consistency by maintaining regular practice schedules.
- Learned to perform under pressure during competitive matches, improving focus and quick decision-making

LEARNING FOCUS

- Exploring core Machine Learning concepts including supervised, unsupervised, and reinforcement learning.
- Building foundational knowledge in Deep Learning and Neural Networks (CNNs, RNNs).
- Studying Computer Vision techniques for image classification and object detection.
- Learning Natural Language Processing (NLP) fundamentals for text-based applications.
- Understanding model deployment workflows to take ML models from development to production.
- Gaining hands-on practice with ML libraries such as Scikit-learn, TensorFlow, and PyTorch
